        - **Passes**
    - **Discussion:**
      - Service: doesn't know that creating a wildlife refuge will be worth it. But is against toxic waste from mining. Realizes money from mining will bring money to state and education

- Bartlett: POInfo: cost of making it a wildlife refuge vs. cost of mining? Where's the money coming from?
- Author: there is 300 billion dollars worth of minerals under pebble mine. This is not about pebble mine; it's about the watershed in the Bristol Bay area.
- Lathrop: POInfo: is confused. How would this conflict?
- Author: this resolution supports bill 134 to protect the whole area, doesn't know how large it is
- Eielson: POInfo: asks a question
- Author: doesn't know for sure
- Su-Valley: worked in the area being discussed, the mining company is proposing to switch from acid lake mining to underground mining, which would have less of an impact on wildlife. Would the refuge limit what they can mine? What limits?
- Author: the refuge would just protect the watershed. It would protect the water around the mine.
- Newhalen: will this protect the watershed without affecting those who use the water?
- Author: this is exactly what this is. It will protect the water, keep pollutants out. Water quality is the issue here. Keeping harmful things from the water.
- Mt. Edgecumbe: POInfo: in 2007 spring AASG GA voted against opening Pebble Mine. Does the GA know this?
- Bartlett: respects the intent, but sees the debate is one-sided:

    - Kari: resolutions do not need an action statement
    - Juneau-Douglas: POInfo: what is the reasoning behind not allowing student to leave the state? Student actions in the past?
    - Author: yes, actions in the past are the reason for this.
    - **Motion to table this resolution until there is an action statement.**
      - Moved by West Anchorage, Seconded by Haines.
        - **Fails, resolution remains on the floor**

    - Author: believes 2002
    - North Pole: supports the resolution. Suggests adding an action statement.
    - Mt. Edgecumbe: Mt. Edgecumbe supports the resolution, future classes should not be punished because of the actions of other students

- Region 2: supports with noted opposition
- Region 3: supports with noted opposition
- Region 4: would like further clarification
- Region 5: unanimously supports
- Region 6: opposes with noted opposition
- Region 7: supports with noted opposition
- **Motion to bring resolution #4 to the floor**
  - Moved by Palmer, Seconded by Wasilla
    - **Passes**
- *Discussion:*
- Service: kudos for research, as much as we wouldn't want to pay the tax, it would reduce the use of plastic bags. Supports the resolution
- Eagle River: POInfo: is this a direct or indirect tax?
- Author: tax would be for the public, it would be an option to use the bags.
- Eagle River: POInfo: the tax would come after whatever you're buying?
- Author: yes, correct.
- Wasilla: POInfo: where does the 15% tax money go?
- Author: it would go towards marine relief fund
- Petersburg: POInfo: the resolution is unclear
- Author: apologizes for typo mistake.
- Klawock: thinks it would be very expensive to go through with this.
- West Anchorage: if we tax plastic bags, people will turn to paper bags, which would kill trees.
- Service: plastics come from petroleum; paper is from a renewable resource. Oil will be saved as well as plastic.
- West Valley: POInfo: how much will it cost the government to implement tax? Is there a plan of action for all sale systems?
- Author: doesn't have an answer to either question.

- Kenny Lake: POInfo: is there an alternative to plastic, would the paper bags be recycled?
- Author: yes.
- **Motion to amend motion to give 1/2 of tax money to plant trees and debris clean-up.**
  - Moved by Bartlett, Seconded by West Anchorage
    - **Discussion:**
    - Juneau-Douglas: we can't amend the bill, which is what we're trying to decide to support/oppose
    - Kenny Lake: doesn't think taxes should be the way to solve economic problems.
    - **Fails**
  - Ben Eielson: POInfo: 15 cent tax per bag?
  - Author: believes it's per bag. 15 cents per bag
  - Juneau-Douglas: keeping one canvas bag for your whole life is a lot cheaper than all the plastic bags
  - Lathrop: POInfo: since 15 cent tax per bag, would that affect the companies that buy the bags?
  - Author: it might save the companies money
  - **Motion to amend resolution #4 to replace "must" with "should" in line 45**
    - Moved by Ketchikan, Seconded by Qugcuun.
    - **Passes**
  - Juneau-Douglas: taxes are necessary in our society. Is not concerned about this resolution. It is an optional tax.
  - Wasilla: the stores have to pay 15 cent tax?
  - Author: doesn't believe so
  - **Motion to move the question**
    - Moved by Service, Seconded by Anatobluk
    - **Passes, moved to a vote**

**Motion to move resolution #9 to after resolution #19 (fifth presented resolution)**

Moved by Monroe, Seconded by Service.

**Passes, resolution #9 moved**

**Motion to not recess for pods and continue GA**

Moved by Bartlett, Seconded by Bethel

**Discussion:**

Bartlett: believes the reason for AASG is to get resolutions done. We need to work hard before we can play hard.

Homer: create new pod called GA?

East Anchorage (host- Jose): all pods need to stay in 3 hour increments, almost impossible to shorten pods; a GA pod can be created, but would be difficult. GA can go on for 1/2 hour, but banquette would also be shortened.

Kenai Central: we already made arrangements, wouldn't be right to back out on the pods.

Juneau-Douglas: is against dropping pods.

Eagle River: concept of motion was to save time.

**Motion to move the question**

Moved by Eagle River, Seconded by Barrow

**Passes, moved to a vote**

### **Dividing the house.**

Service: thought school had to motion to divide house.

Kari (parliamentarian): any member can divide the house.

East Anchorage (host- Jose): can lengthen GA by ½ hour. But other things will be cut.

### **Motion to continue GA fails by a majority vote after dividing the house.**

### **Motion to recess for Pods**

Moved by Klawock, Seconded by Colony

**Passes**

### **Meeting called back to order at 2:20 P.M.**

- Region 7: abstains, did not get to this resolution
- **Motion to bring resolution #19 to the floor**
  - Moved by Dillingham, Seconded by Craig
    - **Discussion:**

    - **Passes**
- **Discussion:**
  - Bartlett: isn't this what the United Nations is? (rhetorical- no POInfo)
  - Skagway: POInfo: would like more information
  - Author: this would not replace the UN. The department of peace would be a department within the U.S.' governing system. It would establish offices of peace, technology for peace, nonviolent conflict resolution, arms control, etc.
  - Juneau-Douglas: this seems like an opportune time for the department of peace. There are other organizations that do similar things. Instead of making a whole new department, we should focus on making the departments we have more peace-oriented.
  - Lathrop: POInfo: if this is such a time-consuming bill, why was it brought up in congress so long ago?
  - Author: no absolute answer
  - Juneau-Douglas: believes creating a department of peace would be beneficial, a necessity. Bartlett: adding another department would cause not as much to get done.

  - Juneau-Douglas: POInfo: how will you enforce the action statement?
  - Author: doesn't think there should be a repercussion, but it will be suggested.
  - Bartlett: how much would this cost?
  - Author: some money, but Alaska is doing quite well, it's not in debt.

- North Pole: POInfo: what is the area cost differential?
- Author: certain moneys per student multiplied by the ACD are how much money the school gets.
- West Valley: POInfo: action statement question about personal views?
- Author: good point, doesn't know, would like to know others' ideas.
- Wasilla: POInfo: what border decides the ACD?
- Author: also a good point, board of education.
- Ketchikan: doesn't support, because the action statement asks all student councils to write letters.

  - **Discussion:**
  - Ketchikan: supports, thinks it's important to reduce the amount of energy being used. Might be more expensive to start, but will save money and energy. It would be a gradual process
  - Wasilla: POInfo: could the author define “public areas”?

- Author: it wouldn't be mandatory, street lights, traffic lights, etc. would be replaced with LEDs.
- Service: supports
- Ketchikan: because of the state's funding, getting new lights wouldn't hurt our funds
- Kenny Lake: supports, but the chemicals in the LEDs are more difficult to dispose of
- Author: doesn't know
- Juneau-Douglas: the new money for the LEDs would come from the same place as the regular lights.
