Carol Waters: Report of the Exec Director

Carol thanks everybody who fought and won against Mother Nature to come to the conference. Many thanks to the Valdez conference team, especially Kelly and Jackie and Ms. Knight! Carol reported her work with the Executive board, as its liaison with advisors and schools. She works with and supports Exec Board and its activities. She coordinates services to all the schools, including membership, conferences, scholarships, and awards. Carol serves as liaison with the accountant and ASAA, and keeps track of AASG expenses and income. She works to get grants, including those from the Rose Exchange and Wilder Construction.

Kelly: Thanks Carol :)

Kelly presents the procedure for the Resolutions. Katrina Nore, Parliamentarian, presents the process for speaking.

Palmer: con: Opposes this resolution because we are not running low on oil, it's a possibility

Juneau: pro: Move to amend, by striking "our future" to "education future".

Seconded by Craig.

Discussion, Move to a vote on the amendment.

Amendment passes.

Discussion on Resolution.

Service: con: Stated that we had a state income tax in 1982, and it has tried to be voted back but always lost.

Wasilla: pro: Thinks this resolution has good intent and that we should get something back because we're giving something in.

Monroe: pro: Thinks that we should have a back up plan with state income tax because we won't always have oil.

Diamond: con: Thinks it's a bad idea because gas prices will go up because we will be billing the revenues that make money for us.

Wasilla: point of info: Remind everyone that it's an income tax, not a tax on gas.

Steller: con: Thinks that people aren't the ones who should be paying our state.

Lumen: con: By installing this we'll be driving business out in Alaska, and we need to find a different way instead of driving others out.

Proceed to a vote.

**Resolution # 8 Fails.**

Lathrop: Lathrop moves to amend.....

Seconded by Eielson.

Discussion.

Juneau: point of info: Will the time be determined by the General Assembly? How?

Lathrop: If there is an exact time in the resolution.

Steller: point of info: wondering if we can darken the font on the over head because they can't read the changes.

Juneau: point of info: How will the Executive board decide if a resolution is time sensitive or not?

Lathrop: it'll be written in the resolution.

Discussion.

Proceed to a vote on the Amendment to the Resolution.

The Amendment fails.

Discussion on the Resolution.

Palmer: con: The intent of this resolution is good, but realistically that if there were a lot of resolutions, we can't introduce all of them, and some will be tabled; it's kind of difficult to table all of these resolutions.

North Pole: con: I think this whole resolution is pointless, if we pass this, it will make things more complicated.

Discussion

Proceed to a vote.

**Resolution # 11 fails.**

Region 6: Supports but would like clarification

Region 7: Supports

Discussion

Wasilla: point of info: Wondering if there will be a separate team or of the boys will be playing with the girls?

West: Separate

Eielson: point of info: Nowhere in the ASAA rule book says that boys are not allowed to play volleyball. Was wondering if that's what they meant? Because there is no rule says that they can't play.

West: DK.

Eielson: point of info.: No, boys from their school asked to have a volleyball team but they didn't allow it.

Anderson: pro: says that if boys can't make their own team, they can play co-ed.

Juneau: point of info: Would want to know where they got their information on line 10.

West: says that girls can join boys hockey but boys can't join girls hockey.

Palmer: pro: Says that males should be offered equally with girls in any sport.

Service: point of order: There's no way ASAA will pass this resolution.

Anderson: pro: It's America and boys should be free to do what they want.

South: call the question

Seconded by Nenana

Move to a vote.

Resolution passes.

Service: asks for a division of the house.

8 schools against the Resolution, majority agrees.

Discussion

Valdez: point of info: Would this be a mandatory course or an elective?

Wasilla: Offered as a half credit elective course.

Mt. Edgecumbe: con: move to strike road system.

Seconded by Kenny Lake.

Discussion.

Wasilla: By the road system, we meant anywhere it would be necessary.

Mt. Edgecumbe: pro: A lot of people from villages do still drive on the road system because they travel, they need to have an opportunity to be safe also.

West Valley: pro: states that villages are just as important to drive on the road system because they're likely to drive just as much as the others because they probably won't live there forever and will drive on the road system.

Wasilla: it's meant for any road or type that's used.

Mt. Edgecumbe: point of info: Would like to define Road system.

Wasilla: It's okay to have it struck.

Chugiak: point of info: Asks if we can table this resolution and wait for the new one?

Wasilla: Move to table this resolution indefinitely.

Point of order: We cannot table this because we're still discussing the amendment.

North Pole: point of info: Are students going to have to still pay money?

Cannot answer this question because it's not part of the amendment.

Discussion.

Now proceed to a vote.

Amendment fails.

Discussion on the Resolution.

Mt. Edgecumbe: Point of order: The amendment was accepted as a friendly amendment?

Kelly- It still has to go through the process of voting.

Discussion.

Diamond: pro: Thinks that this would greatly benefit everyone because insurance is quite expensive, and it'll save you much money on your car insurance.

Eielson: point of info: Wondering if we can enlarge the font

Ketchikan: pro: agrees because it does save kids a lot of money and the reason why Alaska has the six months provision license rule because teens accidents were rising.

Service: con: Feels that this shouldn't be passed because it would cost a lot of money.

Palmer: pro: The money that the students are investing is worth it because it does lower insurance.

Move to amend that it's mandatory to have drivers education for the state of Alaska.

I move to amend the motion after line thirteen in the state of Alaska it's mandatory for all students.

Seconded by King Cove.

Discussion.

Wasilla: opposes to that amendment because they wanted it to be an elective.

Valdez: con: Students should have the choice to drive and not to drive, it is costly to have these

courses.

Eielson: con: with the insurance companies offering a production on the payment, that if the insurance company that's mandatory in Alaska, it would decrease and therefore the it would be bad for the people who paid for drivers education.

Discussion.

Vote on the Amendment.

Amendment fails.

Floor is now open for discussion on the Resolution.

Wasilla: Call the question.

Seconded by Dimond.

Discussion on the Resolution

Wasilla: point of info: Wondering how many beds are available for students?

Mt. Edgecumbe: repeat the question.

Wasilla: How much room do you have for students?

Mt. Edgecumbe: The school has been talking about building a new dorm to accept new students.

Juneau: pro: Thinks that we should all support this resolution.

Wasilla: point of info: How many kids can you actually house?

Mt. Edgecumbe: Not sure, there are four dorms and thinks that they can house 397 students can be held in the dorms.

Jueanu: Don't think it's an issue to have an alcohol and drug problem.

Service: Call the question.

Seconded by West

All in favor to call the question.

Seconded by Eagle

Discussion

Proceed to a vote.

Amendment passes.

Discussion.

Amend article three, section a, subsection one. Part A, saying president non-voting.

Seconded by Cordova.

Su Valley: Point of information: What is the reasoning to make the president a non-voting member?

Mt. Edgecumbe: At this point he believes that the president is already a non-voting member.

Parliamentarian: Point of Order: By accepting this we are ruling over Roberts Rules, If you do pass this, the chair will not be able to go into effect.

Discussion.

Mt. Edgecumbe: Is wondering if the president is voting?

President: Kelly does not vote unless there is a tie. By taking away the right to vote, the chair will not be able to break a tie.

Mt. Edgecumbe: I move to amend the amendment to read President Non-voting except in the case of a tie.

Seconded by Lathrop.

**The changes pass unanimously for the changes to the Constitution.**

Libby: The changes of the By-laws include two main changes, there's no junior or senior SPEED rep. and the secretary/ treasurer would be selected by interview.

Entertain a motion to accept the changes to the by-laws.

Anderson/Chugiak

Juneau: Point of information: Under Article 5, subsection b, number 5 and 10, was wondering why you struck those changes?

Katrina: The reasons are because we have the same line, that's labeled h, three lines up.

Juneau: Point of information: Was wondering why you struck number 10?

Libby: It's not redundant, if you want to change it you'll have to make a motion.

Juneau: Would like to make a motion to move that the registrars would make a report at each general assembly meeting.

Seconded by Kenny Lake.

Discussion.

Proceed to a vote.

**The Amendment passes.**

Juneau: Under article five, section b, number 8 subsection c, The secretary/treasurer, you didn't want to post minutes on the website and was wondering why that is?

Juneau: Move to amend the by-laws under article five, section b, number 8, subsection c, to add at the end and ensure that they post minutes on the website. So they don't exactly do it themselves but make sure they are.

Seconded by Sand point.

Region 7: Supports

Discussion.

Mt. Edgecumbe: Was wondering if it's affecting research?

Palmer: It is affecting research, even the sled library wasn't included and they had to go back and evaluate if it was an appropriate website. There are a lot of rural schools where internet isn't available down in the valley. Was wondering if internet availability should be available for all students in Alaska?

Palmer: Yes, Rural and Urban areas should be equal and get the availability of internet.

Eielson: Fully support this resolution, but it would be very expensive to afford internet all across Alaska.

Valdez: Point of information: Was wondering what the reasoning was of your school board for deciding to limiting access this much? Was there a problem?

Palmer: It was actually not ever brought up to the school board, the decision was made by CIS, and was discussed at school board but there was never a vote on it.

Wasilla: The funding isn't any issue, the reason why Palmer is having this problem because teachers don't use the basic websites as students use. This is punishing the entire student body, so they wanted to use the money elsewhere.

Valdez: Point of information: There were excuses with the internet, but as Wasilla said, comparing to a sixteen thousand person school district, 20 people isn't that much of a percentage at all to have the rest of the students suffer for not being able to have internet access.

Palmer: Make a motion to change the therefore statement, Therefore be it resolved by the Alaska Association of Student Government that AASG supports internet availability in a blackless type format.

Seconded by Kodiak

Discussion

Move to a vote.

Amendment passes.

Mt. Edgecumbe: Thinks that all schools should support this resolution because we need to find

Energy Alternatives for schools.

Palmer: con: Doesn't know if anyone realizes the cost of actual energy. About 89% comes from Oil, Crude oil, and coal.

Valdez: Point of information: Line 18 says that the solar power can be stored in giant batteries, believe that batteries aren't extremely efficient.

Ketchikan: In the summer time, like in the Anchorage areas, they can harvest sunlight that 's called giant batteries.

Service: pro: Fully support of this resolution, America cannot be dependent on oil forever.

Nenana: con: Support research for newly energies, right now oil is the cheapest thing you can buy, gas is the way to go, in the future we fully support it.

Ketchikan: pro: In about 50-70 years, we will run out of oil, so we need to find a new way of energy now.

Palmer: con: over 2/3s of oil is on Federal land, we can't just transform our eighty nine percent of crude oil to wind or hydro-power.

Mt. Edgecumbe: pro: We're just trying to find a new energy just for schools and not new energy for the whole entire U.S.

Anderson: pro: Agrees with what Mt. Edgecumbe said, fuel is going to run out and we should find another resource now.

Diamond: Would like to call the question.

Doesn't really see much reason to not pass this resolution.

Palmer: con: In response to Su-Valleys argument, it might economically disastrous to the environment, it would be more disastrous with six cars on the side of the road. Most of the time with our licenses, we all hated our license, it was a time well spent learning, once you turn sixteen we can all agree it's a whole another experience when your parents aren't with you.

Division of the House. 17-16

Resolution has been called to question

Palmer: Point of order: The resolution is on the floor for discussion because it was more than a 2/3s vote.

Ketchikan: pro: Stated reasons why he wants this resolution to be passed.

Eielson: point of information: Where were the facts found?

Ketchikan: The national highway traffic of information, this is where the most accurate information is available for the public.

Skyview: point of information: Was wondering if they were taking into consideration if the rates have gone down since the Provisional license were given to Alaska.

Ketchikan: It does go down but it doesn't seem it would have been a big difference if we took of

three months.

Wasilla: Point of information: Mentioned that their drivers education teacher had said they supported the lowering of the provisional license time, have you taken into account that maybe some other schools don't have any drivers classes.

Ketchikan: His teacher wasn't the only person who said six months was too long, also other adults too.

Mt. Edgecumbe: Point of Order: Okay, when you take the point of information placard, you need to be asking a question about the resolution not about opinions.

Juneau: pro: Would like the people in the con to discuss with each other so we can move along faster.

Wasilla: Why should we play with the death rate and accident rate when we know that the six month is working? Why should we suddenly drop to three months? So, there's no better reason to try and change that.

Ketchikan: We are reducing the six month provisional license to three months, not completely taking off the entire time.

Palmer: The reason why Alaska has this high rate that lowered was because of this provisional license.

Mt. Edgecumbe: Call the question.

Seconded by Service.

The resolution has been called to question.
