III. General Announcements Megan

Megan: We are recycling at this conference. Please recycle. If you have questions about recycling please ask Palmer delegates. You all need to be respectful of the rooms you are in. Don't mess up anything in there that is not yours. When you are at the microphone, you need to come in a little closer. We have implemented a new parliamentary procedure - we will be using "at ease". This will be used for short breaks instead of going to recess. It will only last for a minute or so. If we are taking a break, we will call a recess. During "at eases", please stay in the hall. You can move around and talk. We will come back to order when gavel is banged.

Haley: Some applicants have had some technical difficulties getting Eboard applications on line. If I came to talk to you during your region meeting then you know you can still turn them in.

Megan: Please refrain from side bar conversations and please stay off your cell phones.

Haley: Nominations will be tomorrow. Applications are due in the morning.

Carlton: Thanks for everyone who submitted resolutions early. Hopefully you all got a resolution packet. Resolutions are due tonight at 11 PM. The library will be open until that point.

IV. Approval of Agenda Megan

Motion to approve agenda

Chugiak/Kenny Lake

Motion passes

West Valley PofOrder: We haven't seen the agenda, so how can we approve it?

Motion to rescind motion

Chugiak/Mt. Edgecumbe

Motion passes

Megan: We will get the agenda to you tomorrow morning.

**Motion to recess
Sitka/North Pole
Motion passes**

meeting recessed at 9:06 PM

Meeting called to order at 9:08 AM

**Motion to approve the agenda
Bethel/Cantwell
Motion passes**

Agenda Approved

- V. Approval of Spring General Assembly Minutes Kalli

Motion to approve Spring General Assembly Minutes

North Pole/Diamond

Motion Passes

Minutes Approved

VI. Reports

a. Officer Reports

- i. Vice President Carlton Eide
- ii. Parliamentarian Haley Nelson
Haley: I've also been working on policy and bylaw changes. Which are both part of the agenda. I also have been working on Ban the R Word campaign with Carlton.
- iii. Public Relations Saulina Lockuk
Saulina Lockuk: I worked on stuff for membership for AASG and have been working on the student council at my school, getting ready for our AASG conference in the spring.
- iv. SBEED Representative Jazmin Ziden
- v. ASAA Representative Annie Bartholomew
- vi. Region I Representative: Taylor Elbert
Taylor: I've been working on RSVP and Ban the R Word committee. I'm leaving a semester early, so I'm trying to find a representative from Barrow to fill my spot.
- vii. Region II: Alex Van Wyhe
Alex: I was appointed to the board last spring in Juneau. I have participated in the AKSN committee and have joined in on monthly teleconferences.
- viii. Region III: Daniel Hagen
- ix. Region IV: Jessica Veltri
- x. Region V: Nick Parker
Nick: My name is Nick Parker and I am the Region 5 Representative. Over the summer and up until now the AASG Eboard has been working on bringing you this stunning and incredible conference. Personally I have been a member of the scholarship committee, working on helping all students who want to, come to Palmer. I have also been a part of the ban the R word committee, working, in accordance with Special Olympics, to

continue the state wide campaign to increase sensitivity and respect and hopefully Ban the R-Word. I have also worked with the resolution committee in order to solidifying the recent resolution changes. I am also co-chairing the AK Student network committee. Through the use of newsletters, the network, and emails I have been working on keeping my region updated on the various issues and opportunities that AASG provides us. Welcome to the fall 2008 Palmer AASG. Thank you.

xi. Region VI: Aubrey Vey

xii. Region VII: Jenny Klejka

Jenny: I am Jenny Klejka and I am Region 7 Representative. During the summer I attended the summer business meeting that was held in Anchorage at West High School. Since then I have been working on the scholarship and resolution committees. I am also working on improving communication and outreach with in the region.

xiii. President Megan Waggoner

Megan: AASG delegates, I have had an amazing term as your president. Since Spring conference I have been busy planning the wonderful fall conference in which you are in attendance at. This summer I represented our great state and organization along with Tiffany Creed, and Irene Fry at the 2008 National Association of Student Councils Conference in Dallas/Ft. Worth Texas. At the conference I led a work shop on interstate sharing and worked with other delegates and state presidents on increasing leadership capacity. I attended the summer business meeting in Palmer and Anchorage. During my term I have served on committees such as Ban the R Word, Resolution Policy, and others. I have been frivolously implementing civic and political engagement into this conference and we will see those results tomorrow. Thank you all for an amazing AASG experience, and have fun!

b. Executive Director Carol Waters

Carol: Good Morning! I wanted to talk to you about my job as Executive Director of AASG. My job is to work with the executive board and act on their behalf and at their request. We share the power of AASG. Yesterday we had our 6th RSVP training. We had over 70 people. That was an example of shared power. The Eboard has chosen RSVP as one of their prime activities since last fall. At this conference, you are sharing power with the Eboard. You can say, as you did last night, that you weren't ready to pass the agenda.

We are working on increasing participation on the AKStudent Network to help build communication throughout the whole state.

Another thing we do is help get everyone to the conference that wants to be here. That is why we have scholarships. We awarded 59 scholarships to this conference, the most we have ever given. We offered \$6,000 in scholarships. Those funds came from your registrations, from membership, and from grants.

Another way you share power is make connections with schools that are not here. Shared power means taking responsibility for both good things, and things that don't go so well. It is important that you work very hard to share your power. We have a Hall of Fame in ASAA. This board is supporting a past president, Peter Tilt, for that nomination. Peter told me that one of the most important things he learned from working in AASG was the opportunity to see different perspectives. I challenge you at this conference, to gain new perspectives.

I want you to know I'm very proud to be a part of this organization.

Motion to amend the minutes to say that Polaris is in attendance with 6 delegates

Dimond/Lathrop

Motion passes

II. Old Business

- a. Fall Conference 2008 report Irene Frieze, Nancy Means
Irene: We're excited to have you here. It's totally fun having fun with you guys. I hope you enjoy the workshops today.
- b. Scholarships Daniel Hagen
Jenny: As you know, we had 59 scholarships from 11 different schools. We're really glad that people are applying for scholarships and we're trying to budget as much money as we can to give out to people.
- c. NASC 2008 Report Conference Delegates
Tiffany Creed: I am from Mt. Edgecumbe. I attended NASC in Texas. I really enjoyed it. My favorite part was the political discussions in our regions. We had a mock election and Obama won. We also went to a water park.
Irene Frey: It was a lot of fun. The mock election was a lot of fun because you got to see the different points of view about each candidate.
Carol: This was my 5th time at NASC. I did a round table for advisors. I really learn a lot and there are great speakers there. It's good to hear the speakers because they all talk about leadership. We only had 3 kids go this past year. Talk to Megan if you have questions.
Megan: It was incredibly successful and fun. We'll be talking about NASC 2009 later on in the agenda.
- d. AKStudentNetwork Committee
Daniel: In reference to participation, the closer it got to the conference the more people we got on the network. We had 217 people recently. We really want people to participate in the network. If there is a lot of participation in the network, we can possibly get up to \$16,000 in scholarships. To get on the computers in the library, the user name is AASG, and the password is aasg.
- e. AASG Theme Megan
Megan: For those of you who were not at the Spring Conference. The Eboard chose a theme. It is Youth Strength Through involvement. We're encouraging all delegates to get involved in many projects. If you have questions about how to get involved, you can talk to any of the Eboard members, and delegates around you because they'll have ideas about how to get involved in your school.
- f. Membership Saulina
Saulina: Welcome to all new delegates and schools. We, as Eboard members, have thought of ways to get people involved. People can share emails, have regional teleconferences, and visit the AkSN.
- g. Nominations from floor during First General Session
North Pole: nominates Kari Nore for President.
Megan: do you accept?
Kari: Yes, I accept
Motion to close nomination for President Hogarth/Lake and Pen Motion passes
Vice President
Craig: nomates Patrick Quigley for Vice President
Megan: do you accept?
Patrick: I accept.
Ben Eielson: nominates Tyler Young for Vice President
Megan: Do you accept?
Tyler: Yes, I accept
Motion to close nominations for Vice President Bristol Bay/Kenny Lake

Motion passes

Public Relations

Mt. Edgecumbe: nominates Maria Dosel

Megan: do you accept?

Maria: I absolutely accept

**Motion to close nominations for Public Relations
West/Glennallen**

Motion passes

Parliamentarian (and determined through interview)

Monroe: Megan Murphy for parliamentarian

Megan: Do you accept?

Megan: I do accept.

**Motion to close nominations for parliamentarian
East/Colony**

Motion passes

Secretary-Treasurer (and determined through interview)

South: nominates Samantha Mcnelly

Megan: Do you accept?

Samantha: Yes I accept.

**Motion to close nominations for Sec./Treas.
Petersburg/Kodiak**

Motion passes

Representative to ASAA (and determined through interview)

Craig: nominates Sadie Kampnich

Megan: Do you accept?

Sadie: I accept.

Ketchikan: nominates Ryan Varela

Megan: Do you accept?

Ryan: I accept.

Sitka: nominates Holly Reeder

Megan: Do you accept?

Holly: I wholeheartedly accept.

Motion to close ASAA nominations.

Eagle River/ Monroe

Motion passes

Megan: delegates, you are now allowed to campaign

Motion to recess until called by chair

Chevak/McGrath

Motion passes

Meeting called to order at 10:18 PM

III. New Business

- a. Proposed Constitution/By-Law Changes Hallie

Haley: We approved policy changes at our SBM.

Carlton: We discussed several bylaws at the last business meeting. The intent of the resolution policy changes is to make them more efficient. The address is aasgvp@gmail.com and you can submit resolutions to this address. Resolutions are ordered by when they are submitted. If I

wanted a resolution at the front of the order, I would turn it in early. We now have 25 resolutions. This is the most I have ever seen. It's fantastic! Since this policy was so well received, we would now like to make this a bylaw change.

Motion to approve Article VI Resolutions in the bylaws

Houston/Manokotak

Motion passes

Carlton: We have one more bylaw change.

Megan: We have the hosting conference bylaw change. You have to submit an application at least 365 days of the conference date set by the Eboard.

Motion to approve this bylaw change

Delta/Nelson Lagoon

Palmer PofInfo: What's the purpose of this?

Megan: It will allow for more applications to be sent in. It gives us time to plan the conference.

NorthPole PofInfo: Were these shown or posted?

Megan: We have two readings to discuss. This was passed by the board. The minutes were posted on the website, and you approved them earlier. Now we're presenting them for adoption.

Motion passes

- b. Member Retention Committee
Committee has nothing to report.
- c. Student Councils of Excellence Saulina
Saulina: if you are planning to apply, the application information is on the AASG website. You should start now, because it is a long process. The deadline is at the Spring Conference. Check the application for more details.
- d. NASC 2009 Megan
Megan: National Association of Student Councils Conference will be in Denver, Colorado next year. The theme is "Got Oxygen?" If you have questions, ask Megan or Carol Waters. It's incredibly fun and a great learning experience.
- e. Announcement of Host opportunities
Megan: If you are interested in hosting an AASG conference, please plan ahead.
- f. Host of 2011
Megan: Cordova will be the host of the 2011 spring conference.
- g. Conference Host for Spring 2009 Megan
Megan: 2009 Spring Conference will be in Sitka at Mt. Edgecumbe.
- h. Conference Host for Fall 2009 Megan
Megan: 2009 Fall Conference will be hosted by West High School.
- i. Presentation of Resolutions, Debate, Vote
Carlton: The packet of resolutions was distributed. We have 25 resolutions. The policy from Juneau was a great success. There has been a lot of hard work put into these resolutions. Some problems at the last conference were Parli. Pro. If you support a resolution, put your placard up, if you don't, leave it down. Call to Question stops all questions and goes straight to a vote. Be careful how you call to question.
Megan: Please don't use move or call to question unless it is absolutely necessary.

Ketchikan high School

Student Activities resolution

Submitted as Read

Region 1: Supports

Region 2: Supports

Region 3: Does not support.

Region 4: Needs clarification on this resolution

Region 5: Supports with noted opposition

Region 6: Supports intent

Region 7: Does not support

Motion to bring resolution #1 to the floor

Chugiak/Ketchikan

Motion passes

Mt. Edgecumbe PofInfo: Could someone clarify what activities are sanctioned by ASAA?

Annie: Anything that has a state tournament.

Kenny Lake PofInfo: Is this included for the entire state, or just for Ketchikan?

Ketchikan: This is entitled to all school districts in Alaska

West Valley PofInfo: what does Ketchikan high school do to have \$628,000 in debt?

Ketchikan: We live on an island, we have to fly everywhere. Airfare is becoming incredibly expensive.

Cordova: We have to take the ferry or fly like Ketchikan does. We fundraise a lot.

East: Although the Alaska state legislature was very generous. ASD was being flat funded. Our activity fees went up to participate. Text books are nicer to have instead of traveling for a sport.

Lines 17 to my understanding is that the people can't touch that.

Megan: Those lines were struck.

Juneau: This is a great resolution. This is not just Ketchikan. Students in Juneau have to fund raise and that takes up a lot of time. Students don't have time to study. Alaska is such a big state and has so many big schools and they can't send students to these events. It's important to reach out to schools and help those students.

Ketchikan: Many of the students have jobs and it's their only way to support some of their families. If they skip work for fundraising they lose money. It is possible to alleviate this pressure put on students. A Juneau football member has to pay 1,400 just to play. Why should someone have to pay so much to do what they love to do?

Glennallen: Ketchikan's debt is over 60,000 and that shows poor budgeting skills.

Unalaska: We live on the Aleutian Chain. It costs one person to fly to Anchorage \$1,200. I suggest you cut down travel or fund raise more.

Wasilla PofInfo: Is this just referring to in-state travel? Would there be funds for kids going to nationals?

Ketchikan: This would be created for all in-state travel.

Chugiak: We would like to know where the money would be coming from?

Ketchikan: We are asking for money from the oil surplus. What an endowment fund is, is taking a certain amount of money and putting it into an endowment. You take the interest from that endowment and give it to the activities.

Sitka: Opening it up for the government to help pay for sports

Bartlett: I play football. We had to pay \$200 for a sports package, and then equipment making it be about \$700. Fundraising is part of the student athletes. If you don't have time for it because of a job, it's a choice you're going to have to make.

Kodiak PofInfo: What portion of travel expenses does this intend to pay for?

Ketchikan PofPriv: I'm having a hard time hearing the discussion, please tell people to speak up so everyone can hear the debate.

Kodiak PofInfo: What portion of travel expenses does this intend to pay for? Does it intend to pay for all?

North Pole: I urge everyone to support this resolution.

Ketchikan: It's up to them to decide how much money they'd allot us.

Kenny Lake: There are many families with multiple kids in sports. A lot of families pay for activities and fundraisers and it's hard on them.

Colony PofInfo: The endowment you would have created, would it go to the debt or for traveling?

Ketchikan: It wouldn't effect other money issues. It's for the future. I'm not even going to be here next year, I just want to make sure it's taken care of

North Pole: You should prioritize between job and sports.

Palmer PofInfo: Is this resolution for the whole state or just for Ketchikan High school?

Ketchikan: We used Ketchikan simply as an example. This is for every school district.

ZJ Williams: It's impossible for village of 400 to raise enough money for travel.

North Pole PofOrder: How do you get the PofPriv? And what does it do?

Haley: It's to ask a question. Example: if you can't hear, you could ask everyone to speak up.

Lathrop PofInfo: You guys are \$91,000 in debt, how many years have you been in debt?

Ketchikan: This is accumulative, and not per year.

Sitka: Bigger districts such anchorage don't have to travel like we do. You guys have more schools in your district so you can play closer to home. We (sitka) have to travel to play anything. I pay over 300 just for my player fee.

Anderson: When schools started, there weren't sports at all. When they started sports, they didn't have to pay for it. Now schools pay for it and it's a privilege.

Shishmaref: I don't think we should not participate just because we don't have the funding. We have to get a scholarship to fly to Nome, then fly to Anchorage and drive down her. It wouldn't be good if we didn't have a chance for our voices to heard

East: None of us are against students traveling. It's something you have to prioritize to go, you have to make a choice whether you want to work or travel.

Call to question

East/Eagle River

Megan: I call a division, this requires a two thirds vote and you do not have it.

Motion fails

McGrath: We come from a really small school and town. We have 15 high schoolers. We have to fund raise for everything. It's really hard to get all the money we need.

West Valley PofInfo: do you guys have a fair means for a distribution of the funds?

Ketchikan: This would be a need based program. Ketchikan might not even get that much money. It could go to the smaller schools that need more money. We're trying to create equal opportunities. It is morally wrong to say that since you are poor, you can not play a sport.

Lake and Pen: I'm from a village of 50 people. We have 3 high schoolers. We fundraised for 9 people to go to Costa Rica and it is not impossible.

Sitka PofInfo: How many times can a school come up to talk? I heard there was a limit.

Haley: There are things called debate rules. It says a member can speak twice on the same debate. You can only speak twice after everyone has gone.

Monroe PofInfo: Where are these surplus funds coming from?

Ketchikan: These funds coming from the extra costs of oil. Alaska has tons of money coming from oil. The money could be used on something none of you want.

Su Valley: I also come from a small school. We do quite a bit of fundraising. We need this just like Kayhi. The money from the oil revenue would really help. It shouldn't have to prioritize between work and sports. It's not your fault if you don't have enough money.

Cordova: We have about 200 kids in our school district. Most of those students are in two or three sports. We fund raise year round. It is possible to have a small school fundraise that much money.

South PofInfo: Have the small schools investigated other grants for funds?

Ketchikan: We are not taking any money from other educational funds. This money isn't going to us. This money won't be going to text books if we don't use it for this.

Bristol Bay: I come from a high school of 40 plus students. Our high school basketball team is going to 10 away games and they have to fund raise for all of those trips. Where are we going to get the money from if fundraising doesn't work?

Ketchikan: I'm on the dance team. We have to fund raise so much because we don't get money from the school. We're going to florida for nationals and we have to pay for that. It takes time from school to go to places.

Unalaska: You guys say we have a huge surplus of money. If all the small schools get it then there will only be like 100 dollars given to each large school

Juneau: I come from a school with a high drop out rate. There are kids who are just in school for a certain activity. We shouldn't discriminate against the people that need money for their sport system. This is not going to be a small endowment. This will be a large amount.

Ketchikan PofInfo: I want to ask a question to the GA. Show of hands. How many students had to pay an activity fee this year? That's a lot of students. Why not take this money that's lying around and not being used for anything and use it to benefit us?

Bartlett PofOrder: Ketchikan can not keep coming to the line and stating their opinion.

Megan: We'll continue to watch it and make sure it doesn't happen anymore. Schools can speak as many times as they'd like to, it's only a person that can speak twice.

Mt. E PofInfo: Is there a credible source saying that this money is just sitting around?

Ketchikan: the site for this would be Housemajority.org. It says where the money will go and how much.

Megan: I suggest if your point has been spoken to please take a seat. We'd like to avoid redundancy.

Kenny Lake: At our school people are fundraising. We are fundraising enough to support all the activities, but it'd be nice to have this money. Most of the funds that come in from the fund raisers is money from our own pockets. This resolution is asking for some extra money. Do you not want help on extra money or do you want to keep fundraising?

East: Everyone struggles financially. The money that is lying around is set aside for future infrastructure such as bridges and roads.

Motion to limit debate to five minutes

East/Sand Point

Motion passes

Debate will end at 11:38

Mt. E PofInfo: What other organizations would want this free money? It was brought up by another school that there are other things that are being funded.

Ketchikan: There are two large pots of money. This is one of two. It's very large right now due to the amount of money. We are taking a portion that we are going to invest and create an even larger amount of money.

Haines: This is a conference of leadership. Each school that is against this resolution is taking away other peoples rights to show leadership.

Mt. E PofPriv: can we have executive board look at these sources? Or somebody else look at these sources? (does not count towards debate time)

At Ease

back to order

megan: In this circumstance, usually a delegate or school can ask to send this to a committee. However, this resolution was sent out early. In interest of time, the Eboard will not be checking the facts on this resolution. What we can do, is we can move to recess and you guys can fact check, and come back after lunch.

Juneau: Our biggest concern is that the only way for this to work is if we got a giant endowment. The amount of the money wouldn't effect any of us.

ZJ williams: If this does not pass, there will be a decrease in native village participation. A lot of the villages can not afford to come to this. Travel is over \$900 per person.

North Pole: Who told Ketchikan there was a grand amount of money just sitting there?

Motion to amend the resolution to say Whereas, Schools in AK that are in a community with a population less than 1,000 or isolated will receive the majority of the financial aide, if larger schools would like to receive financial aide, they present a special circumstance which is then approved by the financial committee

Service/haines

Motion to recess

Mt. E/West Valley

Motion passes

Meetin recessed until 12:30 PM

Meeting called back to order at 12:42 PM

Megan: We are in an amendment to the resolution.

Bethel PofInfo: We would like clarification of definition isolated?

Service: A location that is not easily accessible. A place that takes a lot of effort to get to.

West: it costs 7,000 per person to educate people in rural communities.

Glennallen: Does not easily accessible include communities like Kenny Lake or Glennallen that take 2 and a half hours to get to Palmer?

Ketchikan: This doesn't technically mean smaller schools get more money. This is per student capita. In order for the smaller schools to do stuff, they need more money.

Motion to table resolution indefinitely

Megan: can not be done because we are in a motion to amend.

Motion to amend amendment to state that isolation is any area not on the state road system

Mt. Edgumbe/Sitka

Amendment to the amendment passes with noted opposition

Amendment passes with noted opposition

Motion to table resolution indefinitely and request that it is revised and brought back to the Spring AASG of 2009

West/North Pole

Glennallen: I don't think we should have just gone through all of that to table it till the end of the school year. It'd be beneficial to the entire state to vote on it now.

Motion Fails

Resolution #1 Passes

Ketchikan High School

0 Grams Trans Fat

Submitted as read

Region 1: Supports

Region 2: Split

Region 3: Supports, but would like school food to have same regulations

Region 4: Opposes with noted opposition

Region 5: Unanimously supports

Region 6: Supports intent

Region 7: Supports

Motion to bring resolution #2 to the floor

Homer/Palmer

Motion passes with noted opposition

Eielson: In our country we're allowed to eat what we want and say what we want. If we choose to eat unhealthy, then that is our choice, and that is how it should be.

Motion to amend line 35-35 to read encourage restaurants to use 0 grams trans fat

West Valley/Cantwell

North Pole: I think it's a good idea to say encourages

Glennallen PofInfo: Line 36 doesn't say that it requires, it says that it supports.

East: we really support. It supports healthy lifestyles. This amendment changes purpose of this resolution.

Service: think this amendment would be a great idea. It would probably create a wider spread of restaurants wanting to do this, but shouldn't be required.

Wasilla: if it just encourages, it doesn't make the resolution strong enough.

Ketchikan: there's a reason we have laws in the first place. If we just encourage people to do it, it will never happen. We can't just encourage people not to do things, we need to lead them in the right direction.

Mt. E: we as mt. E. doesn't support the amendment, because encouraging is not as strong.

Motion fails and Amendment Fails

Bartlett: We live in a country where we smoke cigarettes and we drink alcohol. We live in a state where we can possess marijuana. It seems very odd to ban fat before we ban cigarettes or alcohol.

Motion to table resolution until next GA

Ben Eielson/Haines

West Valley PofOrder: We have passed a bylaw that says we can not table resolutions.

Megan: We are not against the bylaw because we're not tabling to the next conference just until the next GA.

Motion passes

Resolution #2 will be tabled until next GA

j. Presentation by AASG Spring Conference 2009 Mt. Edgecumbe Host Team

k. Elections

Motion to recess

Petersburg/Palmer

Motion passes

Meeting recessed at 1:25 PM

Meeting called back to order at 4:38 PM

Motion to add Special Olympics to the agenda

Barrow/Service

Motion passes

Special Olympics

Carlton

Carlton: The past year we've had a partnership with Special Olympics.

Aisha: Students and teachers of AASG. Thank you for allowing us to speak to the GA. My name is Aisha. I'm a graduate of East High School. I'm here today to talk to you about a very serious topic. You are all leaders which is why you are here at AASG. I am also a leader and an advocate for people with intellectual disabilities. How many of you have used the word retard? You don't need to raise your hand, but just think about it for a second. You may not realize, but using the word retard is mean. Using the R word, you are saying it is ok to make jokes about someone with intellectual disabilities. I'm here to tell you that we deserve respect just like you do. You have the chance to make history in Alaska and the Nation. You can ban this word from your conversation and your school. Please help me welcome Robert Corbin from East High School to tell you his story.

Robert Corbin: I am a senior at East High School. One day when I was sitting in the lunch line, I heard someone use the R word to a person. After school I went up and befriended him. You can stick up for someone with intellectual disabilities. Help me make history, Ban The R Word

Aisha: I would now like to introduce Carlton Eide and the AASG executive committee.

Carlton: You guys are leaders. It's up to you to make a difference in your school. You all received bracelets to serve as reminders. Spread the word about Ban the R word. Today we ask you to stand up and take the pledge out loud.

Aisha: Be a fan of acceptance and take this campaign back to your schools. Please go online and encourage others to take the pledge.

Carlton: Sarah Arts has been working with S.O. and we would just like to present her with a certificate of appreciation.

Megan: Thanks to the S.O. for coming out and making this presentation. I encourage you all to implement this.

Back on Resolution #2

Anderson: Anderson school believes that since this is a mostly free country. There is simply no reason to ban trans fat from restaurants. Restaurants may have issues with this. Taste could possibly change and people might not go there anymore. A few people in our region said that poor people might go to a fast food restaurant with the trans fat because they can afford it.

Kenny Lake: Yeah it is our choice, but I don't think there is anything wrong with making something healthier.

Ben Eielson: I had an issue with the statistics. The statistics have to do with either New York or California and we are Alaska.

Juneau: First of all, New York and California were the first places to ban trans fat. That is why all the statistics are based off of this. This resolution is not going to ban fast food. It's going to ban trans fat that contributes to heart disease. There are laws against drugs that kill people, why are you objecting against a resolution that helps us?

Palmer: There is a new law saying that if you mislabel something, you pay a fine. A small organization might have more grams of fat. Places like McDonalds paying the fine, it won't affect them. It will however harm the smaller places.

Su Valley: I'd like to know why anyone or any restaurant wouldn't want to ban trans fat. The only thing I can think of is how much it'll cost and I don't think our health should be jeopardized because it costs too much.

Motion to amend lines 35-37 to read "all restaurants and all schools"

Glennallen/Su Valley

Amendment passes with noted opposition

Bartlett: In case anyone didn't know already, we live in the US. In this nation we get to choose a majority of the things we want to do. In making laws to take away this choice, the little restaurants are effected. No one's shoving burgers or fat down your throat, it's your choice.

Call to question

Bartlett/West Valley

Motion to bring resolution #3 to the floor

King Cove/Wasilla

Motion passes with noted opposition

West Valley: We don't know where the funding for this would come from. We've had DARE and we don't know how effective this is. We already have the TAD policy.

Motion to amend therefore statement to read "to provide this or a similar drug and alcohol awareness program for their students"

Seward/McGrath

Motion passes

Houston: When do you propose to have the lessons?

Ketchikan: We are only asking if everyone supports it.

South: As long as we still have a drug problem in schools, I think we need to do everything that we can. It'll never be solved if we don't do something about it.

Mt. Edgecumbe PofPrivilege: Can you ask everyone to keep side convos down?

Kenny Lake: Basically with DARE, it has not helped. Their methods are not working, we need to think of something else. How many people do you know that have taken DARE and done drugs? I'm not saying it caused the problem, but it didn't help it. DARE is not going to help this problem. If you think that by giving people this information that it's going to help, it's not. I think we should not have a required class of DARE.

Juneau PofInfo: Does TAD fall under the category of a drug and education program?

Annie: the TAD policy provides information of abusing drugs. It is not a teaching tool beyond the video. If you are an offender, you'll be put on Step one, Step two, or Step Three. The online portion is the education component and is only used to educate students. If you are not in a sport or activity, you don't have to watch the video. Only the people that participate have to watch the video.

Kenny Lake PofInfo: Is this saying we would have to take the DARE program all the way from Kindergarten to 12th grade?

Ketchikan: It'd be at the school districts discretion to decide what grades they want to implement it.

Bethel PofInfo: In line 55 is “should require” a suggestion or a requirement?

Ketchikan: The school district chooses if they want to do this.

Ketchikan: Back to the comment that said DARE wouldn't work. There's a reason DARE is in 70% of the school districts. We can't ignore the drug problem in Alaska. If it's up to the schools then it's up to the schools, we need to start talking to kids about drugs and alcohol when they're younger.

Eagle River: It's just that we have so many programs already in place. I just firmly believe that kids who make that decision have already made the decision anyway regardless of the program.

Colony: In elementary schools is where kids learn the fundamentals. That's the best place to start. If this helps one person, then it's good.

Su Valley: I'd like to speak out of personal experience with drugs and alcohol. After drug and alcohol education, I have seen many other kids go down that road and it didn't help them one bit.

Anderson: It's better than no program at all. Just because the high schoolers today didn't learn anything, doesn't mean we can't help the kids still in elementary or preschool make better decisions when they grow up.

North Pole PofInfo: Does the health class have a part on drugs?

Haley: It is not touched on as much.

North Pole: Is that your opinion of what the health class stands for?

Megan: The only information we can give you is seniors are required to take a half year of health.

Bethel PofInfo: I don't know what the DARE program is, can you explain it?

Ketchikan: DARE is a ten week program, one hour every week. An officer goes into the school and the program is funded by DARE and he is trained in the program.

Delta: I think a lot of the confusion going on is the statistics. We've had DARE going on for about 20 years now and in the resolution, I did not see any statistics showing improvement. I'm wondering if it's worth following the nation or should we, as a state, find another way to help our problem?

Mt. Edgecumbe: I don't know about everyone, but I took DARE in 5th grade and it really helped me. I haven't done anything. Even though it doesn't help everybody, it does help some people. In the therefore statement, it does say they can use another program, not just DARE and it's non profit so it doesn't cost us anything.

West Valley: I have also taken DARE. It has helped, but it was only a week out of the year. What helped was having teachers and parents come into the class. I think we should have a class that would somehow help us more. We should have something that would be harder on the students and make them do their part too.

Bethel PofInfo: In places such as villages where they don't have police officers, would they just have people trained slightly who would teach the class?

Ketchikan: In certain instances like that, but I believe they can send someone down to Anchorage free of charge to get the training. There doesn't have to be a huge task force of people, it just has to be one person.

Kenny Lake PofInfo: This is not making it mandatory for school districts to offer, just suggesting?

Ketchikan: In the therefore statement, it says should and it means we're totally encouraging districts to get involved.

North Pole: For people that says it doesn't work, I did drugs in 7th grade and took the program, and it worked for me.

Motion to bring resolution #8 to the floor

Anderson/Polaris

Motion passes with noted opposition

Colony PofInfo: Does Cantwell need a free lunch program?

Kodiak PofInfo: In line 17 and 18 why are community fundraisers relevant to this resolution?

Cantwell: It's relevant because we have a small community and it is hard for us.

North Pole: I oppose this resolution because if students want free or reduced lunches, they can apply for it.

Motion to limit debate to 20 minutes for each resolution

Bartlett/Eagle River

Motion fails

Colony PofInfo: Is it ok that they did not answer my question?

Megan: It's not Parli. Pro. if they don't answer it.

Colony PofInfo: Do you need a free lunch program?

Cantwell: We do not have a lunch program at this time and that is what we're trying to establish.

Cordova PofInfo: Where does the money go if they don't have a lunch program?

Cantwell: sports programs or supplies for other schools.

ZJ Williams PofInfo: Does the wording imply that districts would pay for it and not federal government?

Cantwell: We already get the money, but we don't get the money for the lunch program. We would just like the money to go to the lunch program

Kodiak: I don't think it's written well enough to be passed. I think it should be resubmitted at the next conference.

Seward PofInfo: What's the reason they stopped serving lunch?

Cantwell: In our situation, it was because of lack of people around.

Kodiak: We support intent. The resources are very questionable and you should look into them.

Wasilla: If the money that is for this program is federal money then I believe it should not be used for sports or other activities.

Ketchikan PofInfo: Is this program funded by Alaska school districts or the federal government?

Cantwell: It's through the federal government.

Su Valley: At my school last year, because of poor quality of lunch food we boycotted it for awhile. We had parents in the community bring in good food. Instead of trying to get a school lunch program to be paid for, you could start your own potluck type thing and share food with everyone.

Haines PofInfo: Are you funded specifically for a lunch program and that is given to the sports programs? Or is it the other way around?

Cantwell: The money that is supposed to be given to the lunch program is given to the sports program.

Ben Eielson PofInfo: For schools that don't have lunch programs, are they willing to start a new program for lunch?

Cantwell: We are just hoping to have a free and reduced lunch program for people

Homer: Cantwell basically just wants a lunch program. I think every school deserves a lunch program.

Juneau PofInfo: Could you read back all the specific lines changed from the original?

Megan: They did not submit it as read so there were no changes to the resolution.

Seward PofInfo: What evidence is there of the allegations of the federal funding for the sports program from the free or reduced lunch program?

North Pole: My understanding is that their district does not currently have funding for the school lunch program. The district presents surveys saying how many students need free or reduced lunch. What's throwing you off is that somehow this money is being funded for other programs

Motion to amend and strike lines 17 and 18

Valdez/South

Motion passes

Kodiak PofInfo: In line 11 it says small grammatical errors. What are small grammatical errors?

Mt. Edgecumbe: Small grammatical errors are on lines 2, 4, 6, and 8 where the letters after the whereas are capitalized.

West valley PofInfo: How is this different than what you already do?

Carlton: People now have the option of turning resolutions in early. By doing this, I can now see small grammatical errors. But, if I overlook some I can not change it in the GA without a motion to amend

South PofInfo: How does this interferences with bylaws?

Megan: It doesn't interfere.

Motion to amend the action statement to just say implemented on the next resolution, and take out the part of implementing it into the bylaws

Mt. Edgecumbe/Juneau

Motion passes with noted opposition

Mt. Edgecumbe PofInfo: can we implement this into the bylaws.

Haley: basically changes to the bylaws have to be made by a member of AASG. This resolution would be sent to Eboard. We would format it into such as way for a bylaw format. So yes.

Mt. Edgecumbe PofInfo: if this was put into the bylaws does this require two readings.

Megan: I can suggest to the next Eboard that they adopt it as a bylaw.

Motion to amend the action statement to read is to be implemented into the bylaws and put into effect on the next resolution

Mt. Edgecumbe/West Anchorage

Kodiak PofInfo: If we do implement it into our bylaws, can we use this on the next resolution?

Megan: Yes.

Haley: when bylaws are approved by the Eboard, they take effect immediately, but to make it forever, they have to be approved by the delegation

Motion passes with noted opposition

Amendment passed

Kenny Lake PofInfo: When it says next resolution does it mean next and all resolutions?

Carlton: Next and all resolutions

Motion to bring resolution #12 to the floor

Kenny Lake/West Valley

Motion passes

Polaris: Alaska does not have a state dog. Kindergarden kids are really excited about this. It's a wonderful learning opportunity.

Juneau PofInfo: Does any other state have a state dog?

Lathrop: There are 10 states that have a state dog.

Barrow PofInfo: What's Lathrop's mascot?

Lathrop: It's the Malemute. It's Polaris's resolution and they asked us to submit it because of our mascot.

Service: Lines 7 and 8 say that malemutes did the original Iditarod run, it was actually muts that did it.

Monroe: this was written by 5th graders and we should support them.

Bartlett: are we serious? This resolution is great that 5th graders wrote it. I think that AASG has a lot of important issues that we need to address. Why not add a state cracker?

Motion to postpone resolution indefinitely

Bartlett/McGrath

West Valley: These 5th and 6th graders will be coming to AASG and they will be disappointed.

Bartlett: That's great. We're just saying that there are a lot of great issues that have to be brought up. It was runts that ran the Iditarod.

Polaris: I definitely agree we have a lot of important issues to discuss. I just want support. It is a really important thing that's been happening at my school. I can't speak specifically on the research group.

Craig: This could be important to other people.

Haines: We are discussing this right now, and who are we to tell a bunch of kids that they can't make change. They're just asking for their support.

Service: If we decided that it wasn't factual, then aren't we just voting on a dog? If they didn't actually run the Iditarod, and they want to make change, then we're just voting on a dog.

Motion to bring resolution #13 to the floor

Juneau/Bristol Bay

Motion passes with noted opposition

Unalaska PofInfo: Is this just for your school district or the whole state?

Wasilla: No, just for our school district.

Motion to amend the therefore statement to say in the Matanuska Susitna Borough School District

Wasilla/Kokhanok

Motion passes with noted opposition

North Pole: I urge you to support this because it is just for their school district.

Seward PofInfo: Is Wasilla's administration in support? Why or why not?

Wasilla: Our administration Does support this. As of right now, this year is the first year that it has actually been taught. All the seniors are scrambling to get it in the graduation requirement.

Juneau PofInfo: How full is the freshman school year?

Wasilla: The freshman are required English, math, and science. As of now, AK studies is not required so they take one semester of health and two electives.

Ketchikan PofInfo: Does your school offer correspondence classes?

Wasilla: Yes they're offered, but they cost money. We currently do it through BYU so it costs money.

South PofInfo: Is AK History separate from AK Studies? Or is it the same?

Wasilla: It's the same.

Anderson: Our school is so small, so if we do a class, we do it as a school. We had to take the class for our whole year.

Juneau: It's not going to solve the problem right away. They're still going to have to take this course, and they're still going to have the crowded class.

Wasilla: I understand. As of right now, only seniors can get in this class, so other people can not take it. Maybe our teachers will think of adding more classes.

Petersburg: The students in Wasilla are the ones trying to make the change, so I think we should give them support.

Su Valley PofInfo: Why are underclassmen trying to get into a senior class?

Wasilla: Mostly because people want to get this class over with. It hinders seniors from graduating a semester early.

**Motion to amend therefore statement to read as a course that is not restricted to seniors
Juneau/Anderson**

Wasilla: Due to experience, there is no freshman history course. Whereas seniors have government, so this would work out very well.

Kodiak: It's not restricted to seniors, there's just not enough classes.

Wasilla: This is not a senior restricted course. It's just this year the seniors are scrambling to take it because this is the first year it's been offered.

Amendment Fails

Kenny Lake: I'm for this, I don't see why they can't have this, we have freshman and sophomore year that we take this class.

Sitka PofInfo: In Sitka, we knew about this change three years ago, why did it take so long for Wasilla to implement this change?

Wasilla: The actual class was not started until this year. I'm not sure why it was not implemented a few years ago.

Mt. Edgecumbe PofInfo: How will it not matter next year?

Wasilla: It probably will matter next year. This year juniors will be scrambling to take this class to graduate. Right now it's a senior priority class.

Unalaska PofInfo: What are you going to do with juniors and sophomores that need this class if you've restricted it to seniors?

Wasilla: It would not be restricted to seniors, it's just senior priority.

Su Valley: In our school, AK studies is available to whoever wants to take it. Schools should have to accommodate to students if they want to graduate early.

Wasilla: There's not actual restriction that you can't take this a certain year. This year it's mostly seniors. Seniors also have to take American Government to graduate.

Mt. Edgecumbe: I urge other schools from MSBSD to state their opinion.

Glennallen: I think it's a good idea to urge it as a freshman course.

Motion to amend therefore statement to say "as an underclassmen class, with the exception of having upperclassmen in the class who have not taken or failed the class"

Mt. Edgecumbe/Eagle River

Ketchikan: I feel that this is an important amendment.

Wasilla: This makes our resolution a little more convoluted, it makes it too complicated.

Petersburg: Wasilla understands their situation completely, so let them have this resolution.

Amendment Fails

Juneau: We support Matanuska in their cause.
