

Alaska Association of Student Governments

Resolution #6

Delta High School Club Connex

Submitted by Sirsha McPeck

Submitted Oct. 24th 2017

1. **Be it resolved** by the Alaska Association of Student Governments; That Delta High School administration consider purchasing a connex solely for the purpose of storing Club properties.
2. **Whereas**, Ever since the Delta Middle School moved into the Delta High School building in 2015 we have had limited storage space.
3. **Whereas**, Many clubs like Student council, Booster Club, BPA, and other extra curricular classes like Choir, Band, Drama, and even P.E have limited storage space for their equipment.
4. **Whereas**, A club connex would open up more school space and provide a more organized environment for students

5. **Whereas,** Having a specific organized space to keep all of our student council supplies would improve functionality and efficiency of the student council.
  
6. **Whereas,** one of the hallways in DHS is used as storage for our wrestling mats.
  
7. **Whereas,** A club connex would free up more space in the school and possibly leave enough room to move the wrestling mats that currently pose a hazard.

**Therefore** be it resolved that the Alaska Association of Student Governments supports that Delta High School Administration consider purchasing a club connex.

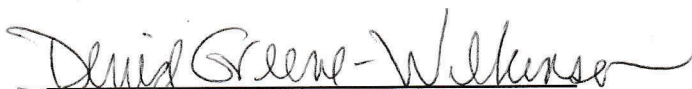

**Action Statement** if passed by the General Assembly is to be presented to the principal of Delta High School, to the Delta/Greely School District Superintendent, Laural Jackson, and the Delta/Greely School Board.

**Passed unanimously by the Alaska Association of Student Governments at the Fall 2017 Conference.**
