

Alaska Association of Student Governments Resolution #14 Graduation Cap Resolution Submitted By: The RSHS Student Government Senior Class Submitted October 26, 2017

Be it Resolved by the Alaska Association of Student Governments that:

- 1. Whereas, in high school, teachers, parents and peers encouraged students to strive for individuality throughout the high school experience;
- 2. Whereas, decoration of high school graduation caps represents one final time that a student can demonstrate their singularity with respect to others as a high school student;
- **3.** Whereas, the cap as a physical entity serves as a reminder of the four years of high school one has endured, while at the same time symbolizes the beginning of what is ahead;
- 4. Whereas, artistic students don't often receive the same recognition as honor students and athletes, and cap decorating is a form of self-expression. In an era of inclusion and diversity, not allowing self-expression is counterintuitive;
- 5. Whereas, this is an important event of students' lives that they only get to do once;
- 6. Whereas, students are learning that expressing their individuality would be beneficial to themselves;
- 7. Whereas, some would argue that the students have paid for the caps and gowns, so they should be allowed to do what they'd like to the caps;
- 8. Whereas, the crowd would likely enjoy looking down on the graduates and seeing all of the different designs that the graduates have been able to create on the top of a simple fabric and board cap;

Therefore, Be it resolved by the Alaska Association of Student Governments supports that graduating seniors be allowed to decorate their own graduation caps as they wish.

Action Statement: This resolution, if passed by the General Assembly of AASG, will be sent to the Anchorage School District Superintendent.
