

Alaska Association of Student Governments Resolution #5

Availability For Future Financially Sustainable Students Submitted by: Lucas Adams and Michael Moore Submitted September 19, 2018

Be it resolved by the Alaska Association of Student Governments that:

- 1. Whereas, Alaska has the second-highest median household income, but a high cost of living leaves Alaska residents with less income after paying expenses than residents in 46 other states:¹
- 2. Whereas, Alaska has the highest credit card debt per capita in the nation;²
- **3.** Whereas, Alaskans have the highest duration of time to pay off their debt when comparing debt to income ratios;¹
- **4. Whereas**, According to The Institute for College Access & Success, 70% of students graduating from four-year colleges in 2012 had student loan debt;⁵
- **5. Whereas,** The College Board reports that for bachelor's degree recipients from families making less than \$90,000 per year, 60% or more borrowed to attend public four-year school:⁵
- **6. Whereas,** Due to compound interest the earlier one starts investing, the more money they can make in the long term;⁵
- 7. Whereas, The curriculum will be based on Dave Ramsey's Foundations in Financial Literacy;⁷

Therefore, be it resolved that the Alaska Association of Student Governments supports that the MSBSD makes a personal finance course a requirement for graduation.
